5 Reasons to Fall in Love with the Finman BBQ Hut

A Finman BBQ Hut allows you to barbecue anytime! An extractor fan can be fitted making this cabin a social clean, safe, and practical dining experience. They can also can be used commercially for accommodation or dining.

01 On average it rains every 3.5 days in the UK (approximately); that's just under a third of the year. Not ideal barbecue weather. A Finman BBQ Hut assures you that the party will go on, regardless of hail, rain or thunder! Now you can plan a BBQ months in advance and celebrate Christmas or a birthday party in style.

02 Introducing our exclusive Finman Extractor Fan, resulting in the cleanest, safest, most practical BBQ Hut available. Control your BBQ like never before, cook using wood or other smokey products, and light the Barbecue and cook on it in record time.

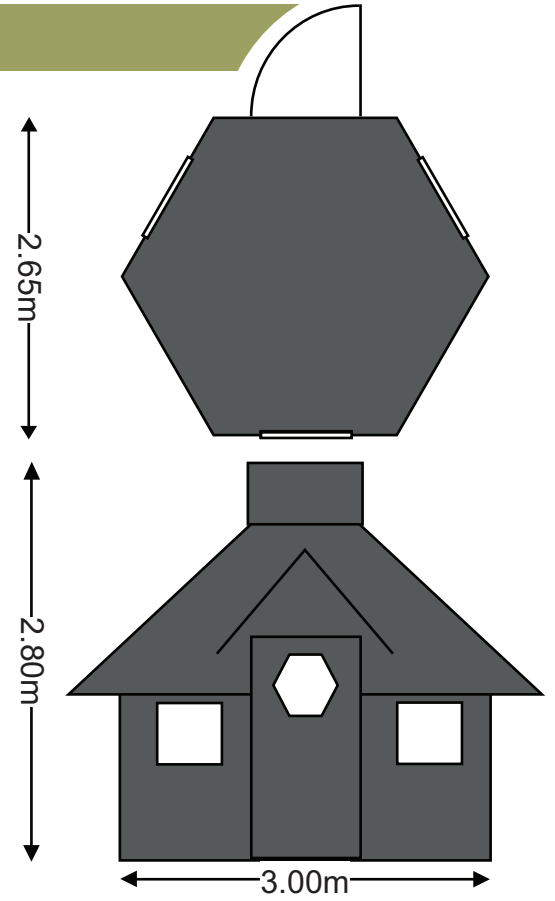

03 People staying for the weekend? Not enough space? The Finman range can add up to 10 extra sleeping spaces or 2 double beds, and that's before you add any extensions onto the Finman!

04 Each product in the Finman range can be extended to give additional space via another separate room. If you are planning on sleeping in your Finman, these are a worthwhile addition! Fit the extensions out as a sauna, entrance porch, shower room or bedroom.

05 Many of our customers cover the cost of the Finman by renting these huts out and from their feedback, it doesn't take long to pay back! Other avenues are cookery demonstrations, Airbnb properties, team building events; you name it, the Finman can be the perfect venue.
